

USB + AA Solar Charger

Ultra Compact • Ultra Lightweight • Easy to Use

Folds up compactly to fit into pocket

Charges most small USB devices

Charges 2 AA rechargeable batteries

Lightweight portable power

Very durable

Ultra compact, ultra lightweight and yet very durable, the PowerFilm® USB + AA Solar Charger is ideal for everyday use. The USB + AA Solar Charger charges most small USB devices and proprietary charging circuitry maximizes charge into the batteries. It provides full charge in four hours of full sun, and with a charging light on the side of the enclosure, indicates charging status. Six grommets are built into the charger to allow for secure fastening to a pack or to the ground. Direct integration of the PowerFilm flexible solar panels onto the fabric allows for easy storage into a pocket.

Batteries are included.

Charge with USB port or removable, rechargeable AA batteries.

USB + AA Charger

Specifications*	Solar Operating Voltage (V)	Solar Operating Current (Amps)	Weight w/o batteries (ounces)	Folded Dimensions (inch/mm)	Unfolded Dimensions (inch/mm)	USB Charging Voltage (V)	USB Charging Current (Amps)
PowerFilm USB + AA Solar Charger	3.6	0.4	4.9	3.25 × 5.5 × 1.38 83 × 140 × 35	24 × 5.5 620 × 140	5.0	up to 1.0

*Operating Voltage and Operating Current at AM1.5. Power performance may vary +/- 10% due to temperature variation, spectral variation, and related effects.
